SUMMARY

A detail-oriented and empathetic UI Designer transitioning into the design industry after completing a year-long, hands-on UI Design program at CareerFoundry. I bring strong problem-solving skills, creativity, and a deep understanding of user needs—shaped by years of managing a household and caring for others. Skilled in user research, wireframing, prototyping, and usability testing, with experience designing responsive interfaces across multiple projects. Motivated to contribute to meaningful digital products and grow within a collaborative, learning-focused team.

SKILLS

UI/UX Design

- Wireframing (low-fi, mid-fi, high-fi)
- Prototyping
- Interaction Design
- User Flows & Site Maps
- Usability Testing
- Responsive Design
- Design Systems
- Visual Design (color, typography, layout)

User Research

- Competitor Analysis
- User Interviews
- Data Synthesis
- Usability Testing (Lyssna)

Technical

- HTML/CSS (Basics)

TOOLS

Figma • FigJam • Miro • Lyssna

PROJECT EXPERIENCE

Bliss — Self-Care & Mental Wellness App

UI Designer | Tools: Figma, FigJam, Miro, Lyssna

- Designed and iterated onboarding and home screens based on user flows.
- Created Mood & Sleep Tracker and progress screens with a consistent visual language.
- Developed a cohesive color palette and typography system.
- Built and tested a functional prototype; incorporated peer feedback to refine usability.

Easy Chef — Responsive Recipe Web App

UI Designer | Tools: Figma, FigJam, Miro, Lyssna

- Created low-fi, mid-fi, and high-fi wireframes for mobile, tablet, and desktop.
- Built a complete design system including typography, color palette, and components.
- Conducted usability testing and implemented improvements (text hierarchy, alignment, color adjustments).
- Designed responsive layouts ensuring clarity and accessibility across breakpoints.

Paw Some — Pet Food & Accessories App

UI Designer | Tools: Figma, FigJam, Lyssna

- Designed user flows, home screen, filter screen, and chat screen for buyer-seller communication.
- Created low-fi to high-fi wireframes and iterated based on usability testing.
- Tested a functional prototype and integrated peer feedback to enhance user experience.

My Notes — Note-Taking App

UI Designer | Tools: Figma, FigJam, Lyssna

- Designed and iterated the home screen based on user flow insights.
- Developed a consistent visual language with clear typography and color choices.
- Conducted usability testing and refined the prototype to improve clarity and navigation.

EDUCATION

CareerFoundry — UI Design Program (2024–2025)

Guru Jambheshwar University, India — Bachelor of Technology (Information Technology) (2002–2006)
